

# Personal Medication Information

## Medication Record

List all prescription medications that you are currently taking, including over-the-counter (nonprescription) medications, such as vitamins, aspirin, or Tylenol.

| Name of Medication | Dose (i.e., mg) | When Taken | Reason for Taking |
|--------------------|-----------------|------------|-------------------|
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
|                    |                 |            |                   |
